*GMetrix - We are pleased to share that browser-based GMetrix practice test for Microsoft Office Specialist and Adobe Certified Associate are now available. Autodesk Certified User practice tests will require the software to be installed.

*LearnKey - LearnKey courseware for Microsoft Office Specialist, Adobe Certified Associate, Autodesk Certified User, MTA, MCF, IC3, ESB, CSB, QuickBooks and CompTIA include videos, glossary, pre and post assessments that will work on a Chromebook. MOS and Adobe courses include an in-application and in-browser lab option. Students working on a PC with the software installed can use the in-application option, and those on a device without the software and SMS installed can use the in-browser option. The additional project workbook resources may require the software for MOS, Adobe, Autodesk, QuickBooks and IC3.

*Jasperactive - Jasperactive MOS Online is now available on all devices including MAC and Chromebooks. Jasperactive MOS Online is web-based learning for Microsoft Office with tailored exercises for Word, Excel, and PowerPoint. The Digital Literacy course is completely browser-based and can be used on any device including mobile devices.

*Brain Buffet - Courses are available via Chromebooks. However, only the video and quizzes are available. Project resources and enrichment exercises require installation of the software.

*Pearson - IT Specialist courses available on all devices. Adobe course videos and quizzes are available on Chromebooks, project resources and enrichment exercises require software installation. MOS ecourse is only supported on a PC.

*TeachMe3D - Courses are available via Chromebooks. However, only the videos and workbooks are available. Projects and activities require installation of the software.

*CADLearning - Courses are available via Chromebooks. However, only the videos and workbooks are available. Projects and activities require installation of the software.

*Unity - Courses are available via Chromebooks. However, projects and some activities require software.

SOFTWARE INFORMATION

Office 365 for Students and Educators

Students and educators at eligible institutions can sign up for Office 365 Education for free, including Word, Excel, PowerPoint, OneNote, and now Microsoft Teams, plus additional classroom tools. All you need is a valid school email address. It's not a trial – so get started today.

Adobe Creative Cloud

Adobe has extended the distance learning offer for U.S. K12 students through August 31, 2021. See more details here.

Adobe supports deploying Creative Cloud in a virtualized environment with Named User Licensing. If the distance learning offer does not apply to you, speak with your Adobe rep or reseller about purchasing Named User Licensing, which gives students full access to Creative Cloud wherever they are.

For those that already have Named User Licensing, helpx.adobe.com has great resources for getting started:
Best practices for Creative Cloud deployment on VDI.

Autodesk

Autodesk has granted access to our tools to students and educators for the past five years with no charge. This remains unchanged.
